

Fruits

Fresh Fruits

We provide a wide array of fresh fruits that have high nutritional value. Our fruits retain their freshness till the time they reach their final destination.

We, Taj agro products limited.. strive to provide our global clients with safe, high quality & fresh fruits and vegetables. The company has earned the reputation of a distinguished exporter and supplier by offering healthy and hygienic range of agricultural products at highly affordable prices. Our range of products includes Australian Apples, Cherries, white berry , blue berry Fruits, Pears ect.. and many other food items. All the products are produced by conventional breeding techniques, which have not been genetically modified or engineered. We are professionally managed by a group of personnel having years of experience behind them. Our strict commitment towards quality, freshness and client satisfaction have helped us to discover a huge clientele in various overseas markets like Middle East, European and Asian countries.

he products are packaged in durable and superior packaging to ensure the safe and uncontaminated transportation of goods to the market. Our wide distribution network and capacious storage facilities enables us meet bulk orders within tight deadlines

We Offer Verities of fruits....

Taj agro Products is a name synonymous with high quality and freshness. We are a renowned exporter and supplier of the following fruits and vegetables:

- Black Grapes
- Apples
- Pineapples
- Cherries
- Wolf berry
- White Grapes
- Banana
- Orange
- Watermelon

Fruits and vegetables are an important and healthy part of our diet. The convenience of supermarkets has made it easy and simple for us to buy vegetables and fruits all year around. This has helped people to enjoy fresh fruits and vegetables even if they do not have their own organic gardens and orchards.

What is the correct way of eating fruits?

It means not eating fruits after your meals!

Fruits should be eaten in an empty stomach.

If you eat fruit like that, it will play a major role to detoxify your system, supplying you with a great deal of energy for weight loss and other life activities.

So please eat your fruits in an empty stomach or before your meals!

During the fruit fast you can eat fruits, prepared in salad forms and make it more interesting.

Proper Fruit storage and vegetable storage :::

Note:- can keep the nutrients and vitamins of your particular favorite produce last longer therefore benefiting your body. It also gives you that crisp and crunchy texture instead of the wet noodle texture
