

ORGANIC ROSE WATER

welcome

Rose water is made by the steam distilled of rose petals

Our Damascus roses are organically grown and are handpicked each morning at 5 am before they fully bloom and them steam distilled to make rose water. We use no additives, preservatives or any other synthetic materials in our rose water.

Uses and Applications:

Culinary

Our rose water is food-grade product and therefore completely safe to use in cooking.

- Rose water is traditionally used in several mithai's in india including the famous Gulab Jamun.
- It is used to flavor several puddings, pastries and other desserts.
- It can be used in making ice-creams.
- It can be used in making rose syrup.
