

Soya bean Refined Mill Delivery

SUMMARY

The metrics in this report cover three year trends in Soybean oil, refined: not made in soybean oil mills [Manufacturing sector], broken out on a state-by-state basis. Analysis is based on data applied from 3 industry firms. Industry market vitality measures for each state are benchmarked against US averages for the industry, creating easy comparison of state-by-state performance. Industry sales are detailed for both company-wide headquarters data and locally generated sales levels. The report also compares proprietary measures in each state and the US, including failure rates, entrepreneurial activity and new branch development rates in the industry.

Quality from the Beginning: Wenger Feeds is a major full feed and feed ingredient supplier for laying hens, pullets, broiler chickens, turkeys, ducks, game birds, swine, dairy, and beef cattle in the Mid-Atlantic region. soya bean refined oil As one of the only feed mills in North America that meets ISO requirements, our customers can trust in every stage of purchasing, manufacturing, and delivery. All feed is made to order with fresh ingredients. Regular maintenance of all mill and delivery equipment insures consistently ground corn, an even mixture of ingredients in every batch, durable pellets, and on-time delivery. Feeds can be traced at any stage in the manufacturing process back to inbound ingredient trucks. Samples of all outbound orders are taken and kept for our Quality Assurance department.

On-Time Delivery from Six Locations: Currently operating 6 mills in Pennsylvania and Maryland, Wenger Feeds services the Mid-Atlantic region. We Wenger's Feed Mill, Inc. Truckoperate and dispatch trucks 24 hours a day, five days per week and Saturday until noon at most locations to ensure quick, courteous service. Wenger's owns and maintains both trailer and tri-axel trucks and has the ability to haul up to 28-30 tons with special permitted trucks. Each truck is equipped with disinfecting units that spray the wheels upon entering and exiting your farm to protect your bio security, and all truck compartments are properly flushed as needed.
